

KSS Meeting minutes
August 09, 2007

Bobby Smith, Derek K. & Sonni, Kevin Smith, Jerry Bratt, Regina, Byron, Terry Plenert, Paula Stout, Jim Griffith, Kim Smith, Tim Miller, Lonnie Cooper, Kelly Harper, Jeffrey Best (Director of Landscape Architecture) with Law/Kingdon, Inc, and William Wells with Law/Kingdon.

Chapin Park Improvement Project:

Discussed potential and details for new trail. How it could be routed, what would be in place (signage, kiosk etc) who would be liable for upkeep, where parking would be. Rock can be brought in. There is a price issue and also would be nice to keep rock indigenous to what we have here in Kansas. Mechanical equipment can be provided by parks department. Encouraged to go down and take a look and walk it. Contact info jbest@law-kingdon.com. 345 Riverview, STE200 Wichita, KS 67203; 316-268-0230.

Sante Fe:

There is an xterra race coming for Santa Fe in late spring '08. Discussed possibilities for how the trail being built could lend its self to this event.

“Healthy Spirit Club”

Spirit Aerosystems has a health group they are organizing. We could get with a bike shop to have demo bikes brought out for a clinic day. Basically a no drop ride to boost membership. Could possibly tie into the Wichita Corporate Challenge. Sonni will put out a feeler for Spirit to find out the interest.

Equipment:

Discussed we have budgeted for a leaf blower that will move most debris and small animals from the trail. Would be great to use at Horizon for those leaves down in the bottom.

Brochures:

Need more!!

KTC:

They have ordered the Ditch Witch and backhoe. Ready to buy a trailer to haul those. We can have them at Fall River this fall. Terry passed around the grant proposal. Spraying didn't get done at Fall River. Needs mowed again, then Ditch Witch will do the job.
